Recent quarters by role (decimal HPRD)

Quarter	Total	RN	LPN	Aide
2025Q2	3.60	0.46	0.92	2.21
2025Q3	3.77	0.46	1.03	2.28
2025Q4	4.26	0.57	1.16	2.53
2026Q1	3.81	0.52	1.06	2.23

Data, methodology & limitations

Source datasets. Staffing values (this quarter and the trend above) are CMS Payroll-Based Journal (PBJ) quarterly data, PBJ Q1 2026. Facility identity, census, CMS star ratings, case-mix, and ownership context come from the selected CMS Provider Information snapshot (September 2026 processing snapshot). Its staffing measurement period is Q1 2026; ratings and identity describe that snapshot and are not dated by the PBJ quarter.

What CMS publishes vs. what PBJ320 calculates. Reported hours, census, ratings, and case-mix benchmarks are published directly by CMS. PBJ320 calculates hours per resident day (HPRD) from CMS's reported hours and census, converts decimal HPRD to clock-time labels, and writes the plain-language takeaway on page 1 from those calculated values.

Definitions. HPRD means hours per resident day. Clock-time labels are rounded to the nearest minute; decimal HPRD remains the analytical source value. Case-mix is an acuity-adjusted CMS benchmark, not a legal staffing minimum.

Limitations. This is a quarterly summary, not daily/shift-level detail. Figures reflect the PBJ quarter above and may not match a more recent CMS release. This public summary is informational and is not a legal or clinical determination.
